2017 International Skills Competition of China

IT Software Solutions for Business

Test Project

Session 4

Written by:

Technical Expert Group

Contents

Session 4 of this Test Project consists of the following documentation/files:

1.TP09_S4_actual.pdf(Session 4 instructions)

Introduction

In this session, you need to finish the software test and create a PowerPoint Presentation and make presentation. If you did not finish all the deliverables of the previous session, do not do them now, because you have new deliverables to work on.

Instructions to the Competitor

You have 2.5 hours for this session.

Please use English all over your development except for particular specification. E.g. texts of forms, feedback or prompt message, comments etc. All deliverables are in English.

Please save your deliverables to the folder "session 4" under the 2nd drive directory in your computer.

By the end of this session, you will need to have the following deliverables ready to submit so that the Basketball Event Management system will be finished on time.

Make sure that you follow the provided style guide throughout all parts of the system.

Make sure that you provide appropriate validation and error messages throughout all parts of the system.

Make sure that all relevant buttons/links are working at the end of the session.

Make sure that you use appropriate naming conventions for all parts of the system as needed.

In the end, you need to make the folder which stores the deliverables of that session into a compressed file and submit the compressed file "Session4.rar".

DELIVERABLES (SESSION 4)

4.1 PPT DOCUMENT

PPT DOCUMENT

You need to prepare a PPT file to present all the aspects of your system to the client. Here are the requirements:

- Present all parts of your system. Use screen captures and make sure that consistency between each part is shown fluently in your presentation. If there exists a function that you did not finish, just create a dummy window.

- Make sure that you followed the provided style guide in your presentation (Logo, font and color).

- Make sure that your presentation is professional and complete (home page, catalog, footer, slide master, transition, animation, links).

At last, name your PPT as "powerpoint.pptx" and submit.

4.2 PPT PRESENTATION

PPT PRESENTATION

You should make a three-minutes presentation to your clients.
